Education

Indian Institute of Information Technology, Allahabad

M.Tech in Information Technology CGPA: 8.26

Aug 2025 - Present

Allahabad, Uttar Pradesh

Government College of Engineering, Kalahandi

B.Tech in Computer Science and Engineering CGPA: 8.75

Aug 2019 - Jun 2023

Bhawanipatna, Odisha

Relevant Coursework

Machine Learning, Artificial Intelligence, Data Structures and Algorithms, Database Management System, Computer Networks, Operating Systems

Experience

IIIT Allahabad

Teaching Assistant

Aug 2025 - Present

Prayagraj, Uttar Pradesh

- Assisted instruction for 130+ students in **Design and Analysis of Algorithms(DAA)** and **Operating Systems(OS)**, ensuring a 95% assignment completion rate.
- Designed and evaluated lab sessions and vivas; improved student project accuracy and consistency by 20%.
- Collaborated with faculty to standardize grading rubrics and ensure fairness across 3 sections of coursework.

Projects

Urban Sprawl and Land-Use Change Analysis | *Python, QGIS, Remote Sensing, Random Forest*

- Analyzed multi-temporal satellite imagery spanning 30 years to quantify **25% urban growth** in the Sangam region.
- Automated geospatial classification using **Semi-Automatic Classification Plugin (SCP)** and **Random Forest** algorithm.
- Validated predictions via confusion matrix achieving **92% classification accuracy**.
- Demonstrated model evaluation skills aligned with AI output quality assessment workflows.

PaperMind: Containerized RAG Academic Platform | *Node.js, React, Qdrant, MongoDB, Docker*

- Built a microservice-based Retrieval-Augmented Generation (RAG) platform using **LangChain** and **OpenAI GPT-4** to extract context from multi-modal inputs.
- Implemented semantic search and document parsing by engineering text-chunking and indexing pipelines within a **Qdrant Vector DB**.
- Secured system architecture with stateless **JWT authentication** middleware and a credit-based tracking system backed by **MongoDB**.
- Orchestrated multi-container production stack deployment using **Docker Compose** with isolated networks for backend and database runtimes.

Technical Skills

Languages: C++, Python, JavaScript (ES6+), SQL, HTML/CSS

Frameworks & Libraries: React.js, Node.js, Express.js, LangChain, NumPy, Pandas, Scikit-learn, TensorFlow, PyTorch

Databases & Vector Search: MongoDB, MySQL, Qdrant

Developer Tools & DevOps: Docker, Docker Compose, Git, GitHub, Postman, Linux, VS Code

Specialized Tools & Domains: QGIS, GEE, Remote Sensing, Retrieval-Augmented Generation (RAG)

Achievements

- Secured an **AIR of 3531 among 170,825 candidates** (Top 2%) in GATE 2025 CS, demonstrating strong core CS fundamentals.
- Solved **400+ DSA problems** across platforms tuf+, LeetCode, and Codeforces.
